EXPERIENCE

Freelance

Remote

Feb 2020 – Dec 2021

Front-end Developer

- Worked with various international clients from 5+ countries with new and ongoing projects
- Implemented **responsive** and **mobile-first development** strategies in every project
- Resolved issues in an existing project to meet the user requirements

Technologies: HTML, CSS, JavaScript, Bootstrap

Digital Science Web Technologies

Ahmedabad, India

Nov 2018 – Jan 2021

Front-end Developer (Full-time)

- Researched and implemented correct coding practices for SEO, resulting in an average of 60% higher search engine rankings than previously
- Collaborated with a team of 10 developers for 8+ months on a major website redesign in **Agile** fashion
- Followed **SDLC-Agile Methodology** and developed the website from the scratch. Worked closely with the client to ensure project requirements are met
- Maintained 30+ client websites and provided technical assistance to 100+ clients on a full-time basis
- Used **Git** and **GitHub** for continuous and incremental development of the project

Technologies: HTML, CSS, JavaScript, ReactJS, Bootstrap

PROJECTS

Timesheet Tracker (Capstone Project)

<https://timesheet-tracker.netlify.app/>

Full-stack Application that manages users' courses and tasks along with features like time tracker, background music, timesheet CSV export, teacher dashboard, dark mode, and admin panel.

- Optimize performance and accelerate deployment by using React (TypeScript) with Vite
- Authentication with Firebase provides users to Sign in with Google as well as an option for email sign-up
- Responsive and mobile-first development with TailwindCSS resulting in smaller CSS in production
- Developed REST APIs with ExpressJS with authentication middleware and role-based access control

Technologies: ReactJS, TypeScript, NodeJS, ExpressJS, PostgreSQL, OAuth, TailwindCSS

Chat Room Application

[Source code](https://live-chat-6i8k.onrender.com/) | <https://live-chat-6i8k.onrender.com/>

- A live chatroom application built using NodeJS, ExpressJS backend with socket.io and ReactJS-TypeScript in the front-end

Technologies: NodeJS, ExpressJS, Web-sockets, ReactJS, TypeScript, TailwindCSS

Make-up Affiliate Marketing Website

[Source code](#)

- Make(Things)Up is an affiliate marketing website for makeup products.
- Utilizing two Public APIs: one for fetching different makeup product information and another to convert the currency rate

Technologies: NodeJS, ExpressJS, EJS, Bootstrap

EDUCATION

Humber College

Web Development (Post-Grad)

Toronto, ON

Jan 2022 - Present

Gujarat Technological University

Bachelor of Engineering in I.T.

Ahmedabad, India

June 2013 – June 2017
